

Architectural Profiles Catalog

4083 Countryview Rd. Rockcreek, OH 44048
PH: 440-415-0500 www.spraystonedesigns.com

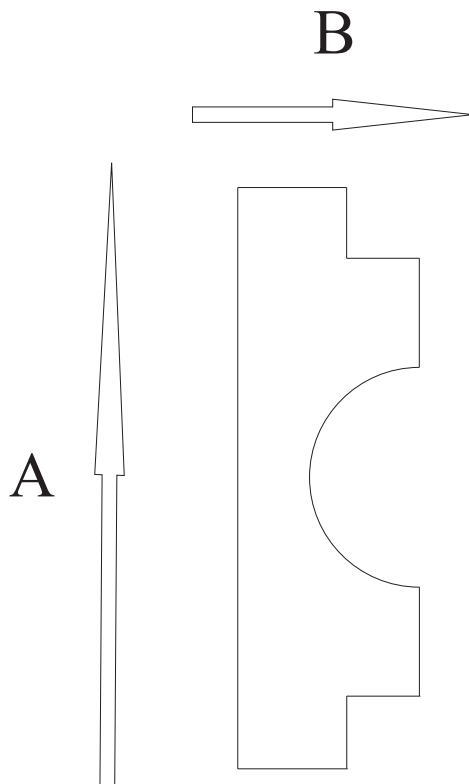

Pricing :

Our profiles are priced by the ft. and are figured by the finish that is requested. Large orders with installation are charged by the project. Our profiles are offered finished as follows:

- Raw Architectural EPS foam
- Hard Coated with Stucco or Spray Stone Finish
- Solid lite Weight Plaster
- Solid Old World Stone

Profile Sizing :

When requesting quote, please give us the desired finish and size of profile as shown Below:

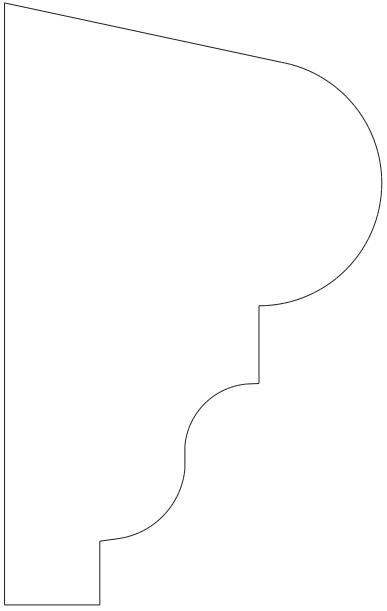

Installation:

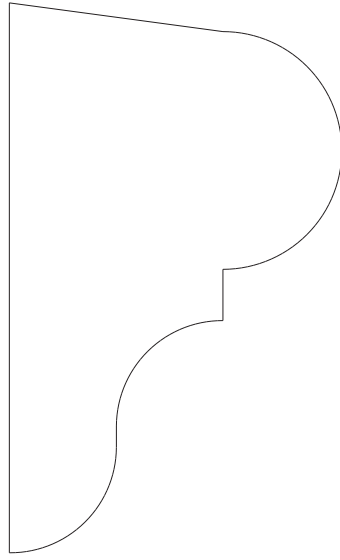

1. Insure surfaces are dry, free of contaminants, loose material, dust free, straight and sound.
2. Cloos Effects Profiles are manufactured using EPS, Mesh and acrylic Crete (except for our plaster & old stone which are poured from molds). The Mesh is to be folded back 180 degrees to sit flat against substrate. If you are not using mesh to tie into scratch coat, cut and remove mesh, exposing only the EPS for attachment.
3. Using a 3/8 notched trowel apply approved cementitious compound or adhesive to the surface that will be in contact with the substrate. Also apply a thin coat to the contact surface or (substrate). To ensure maximum bonding while the adhesive is wet, apply pressure on the entire length of the molding moving back & forth with a lateral motion. Immediately remove extra adhesive and wipe clean with a damp cloth.
4. All details should be held in place with mechanical fasteners until adhesive sets. For example: clamps, galvanized nails, screws and washers.
5. All mitered and butted surfaces must be coated with adhesive.
6. Mesh is to be applied 3" past each side of joint. A skim coat of adhesive is to be applied over top and allowed to dry.
7. Joints should be sanded smooth.
8. Use a diamond blade saw or equivalent to cut mouldings to size.
9. Cloos Effects profile products *must* be kept dry at all times prior to installation and painting.
10. We recommend using PL Premium or Thin Set Adhesive
11. Cloos Effects products are to be primed and painted with exterior acrylic latex paint or with elastomeric paint.
12. Larger sized architectural mouldings and elements may require the use of metal tracks for safer installation results.

DISCLAIMER:

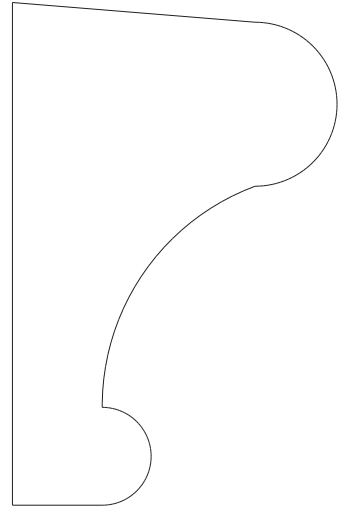

- These are installation guidelines only.
- All matters related to the integrity and the structural aspect of the building envelope must be approved by your engineer.
